MASSENZANA

Service

Fit for the future.
We offer you comprehensive upgrades
and retrofits for your existing machines.

MASSENZANA

For over 60 years now, you can find machines with the >>Massenzana<< logo in companies all over the world.

Many machines are also existing in Germany - running reliably and fulfilling their duties every day. To ensure this, a reliable, competent and fast service is an important aspect.

Support with multilingual contact persons

Our company Massenzana GmbH based in Wiesentheid provides short response times, uncomplicated service processing and quickest possible delivery of wearing and spare parts. Your contact persons are located in the center of Germany – also for existing Italian machines

Regular Service

Arrange with us regular service cycles. Our technicians control periodically wearing parts and critical components and create a report about short-, middle- and long-term measures.

Your Advantages: Planability & Cost Reduction

The replacement of components and maintenance intervals can be planned to avoid unwanted downtimes. As a result of this, continuous service and maintenance works contribute to cost reducing.

Testing without Risk

Please contact us: we arrange a meeting, provide a first check of your machine's condition and create a report. You pay only the expenses 1:1 – without any obligations for the future.
